Hi Rob,

Attached is the Gold King Mine final SAP/QAPP in both PDF and Word and the first addendum as a separate PDF. All appendices are included except for Appendix B, which is the Savannah Test America SOP. That was a 36 MB file alone, so I didn't want to shut down your email inbox. We'll need to figure out another file transfer system for that, or we could send it on a CD. Please let me know if you have any questions or need anything else. Thanks.
